

Call for Tender – Web Development Services

With funding from the Bill and Melinda Gates foundation, we have established the African Consortium in Modelling for Effective Vector Control (ACoMVeC) comprising of a number of research institutions. With objective to support malaria mathematical modelling capacity-building efforts across sub-Saharan Africa with a specific focus on vector control to help maximize its impact and reduce malaria burden. With this, the need to develop a sophisticated virtual communication platform to promote our various activities, events and impact is crucial to reach our goal.

Therefore, we are looking for a dynamic, experienced, creative, and innovative Web Design Engineer who will develop and implement the full functionality of the website.

The proposed website is a website with the following features:

- ✓ Presenting the ACoMVeC project (About, objectives, aims and results...),
- ✓ The countries of implementation of the project,
- ✓ Recruitment form for scientists,
- ✓ Publication of research topics,
- ✓ Publication of research results,
- ✓ Management of user accounts and rights,
- ✓ Introducing the project partners,
- ✓ A contact page to contact the project monitoring team,
- ✓ A download centre to access the different reports and research results,
- ✓ A career area (publish job offers, apply online to job offers, spontaneous application, Frequently Asked Questions (FAQ)...),
- ✓ Connection to social networks,
- ✓ A search engine within the site,
- ✓ Newsletter management (subscription, unsubscription),
- ✓ A bilingual website (French / English), an administration space to manage the site.
- ✓ Etc...

Recommendations
